

Roads	Water and sanitary sewer mains	Power Lines and Poles	Sewage Lagoons	Solid Waste Sites	Parks

Municipal Boundary	Community
Leisure and Tourism	Physical Environment
Park / Recreation Area	Mountain
Lodging Facility	Fuel Facility
Infrastructures	Garage
Pits, Borrow Sites, Quarries, Dump Sites	Municipal Hall
Communication Tower	Tank
Educational Building	Water Treatment Plant
Transport	Trail
Other street or road	Seaplane Base
Ferry	Permanent Watercourse
Hydrography	Ditch
Waterbody	Precipitation Increase
Lagoon / Reservoir / Dugout	Wildfire
Risk Type	Wind Increase
No Identified Risk	Moderate-low
Flooding and Coastal Erosion	Moderate-high
Permafrost Degradation	High
Risk Level	
No Identified Risk	
Low	

Government of Northwest Territories
Assessment of Climate Change Impacts on Infrastructure in all NWT communities using the PIEVC protocol
 Northwest Territories, Canada
